Dr. S. Allan Lough, Chief
Radioisotopes Branch
Isotopes Division
Oak Ridge National Laboratory
Oak Ridge, Tennessee

Subj: Application for General Authorization for Procurement of Radioisotopes for year beginning 1 January 1953

Ref: (a) USNMDL ltr 3-953, J3, 8591, dtd 2 Mar 51
(b) USNMDL ltr 3-953, J3, 92784, dtd 2 Nov 51
(c) USNMDL ltr 3-953, J3, 521454, dtd 24 Nov 52

Encl: (1) AEC Form 313 (3 cys)
(2) List of Radiation Instruments Available to the Radiological Safety Officer (2 cys)

Dear Dr. Lough:

We are submitting herewith enclosure (1), application for renewal of General Authorization for procurement of radioisotopes for the year beginning 1 January 1953 for the U.S. Naval Radiological Defense Laboratory. It is requested that our General Authorization should include authority for the waste disposal program as outlined in reference (c).

The Radioisotope Committee is the same as in our application for General Authorization, reference (b), and for this reason the names and their experience are not enclosed. The procedure for exercise of control by the Radioisotope Committee is the same as in our application for General Authorization, reference (a). The list of instruments has been revised and simplified and is herewith submitted as enclosure (2).

We would be very happy to supply any further information, if needed, in connection with our application.

Very truly yours,

A.L. Baietti, Chairman
Radioisotope Committee
